

# Evaporative Cooler for Forklift Operators EC-V-04S

Protect operators from heat related illness  
with fine mist

**Feature ①**  
**Cool up to 8°C with fine mist and strong wind**

Cooling fan with a patented nozzle  
Attach it to a pillar using cable ties.  
This high speed/compact fan keeps operator and surface cool and dry. It can cool up to 8°C.

**Feature ②**  
**Energy efficient and Compact !**

Control Unit  
"EvapoCooler" only uses 38W with "High" fan setting, so it does not cause much wear on the battery. This control unit can be placed on a flat surface using magnets or attach to a pillar using cable ties. EvapoCooler is designed to operate with drinking water.

Model	EC-V-04S
# of nozzles	One (with a cooling fan)
Amount of water used	Adjustable ( 0 ~2L/hour/nozzle)
Fan Speed setting	3 settings (High · Mid · Low)
Power Consumption	High Speed: 38W, Low speed: 26W
Voltage	DC12V
Dimensions (mm)	200 x 140 x 165
Weight(kg)	2.7kg (Control unit)

Designs and specifications are subject to change without notice.

**Feature ③**  
**Adjustable mist flow and fan speed !**

Mist control valve

Adjustable mist flow can make cooling wind dry or wet. Three fan speed settings adapt to any conditions. From warehouse with noise restrictions to windy environment.
